Abstract OF THE ^{09/156 886}
DISCLOSURE

Self-adhesive protective film for the exterior of painted vehicles, especially cars, characterized in that

- the backing of the protective film is a film coated on one side with an adhesive composition
- whose bond strength on steel is between 0.2 and 2.8 N/cm,
- the adhesive composition comprising a copolymer of at least two different α -olefins having 2 to 12 carbon atoms and at least one diene as further comonomer, no α -olefin having a proportion of 75 mol% or more in the adhesive composition as a whole, and the copolymer having a Mooney viscosity ML (1+4) 125°C of less than 50.
